PM-1485 Sensor-Based Puff Initiation (Beta related)

Dear Charles:

Enclosed for your review is the most recent draft of the application for the above-identified invention. I have added a drawing of a flavor generator with a piezo film sensor at the mouthpiece. Discussion of that drawing is found at the detailed description of present figure 1. I have also added a detailed description of the lip sensor drawings that Mr. Sprinkel earlier provided us. That discussion is found at the description of present figures 6 and 8.

Please review the application, and comment as required. Please also ask Mr. Sprinkel to review and comment on the latest draft. It may be necessary for him to review not only the newly added matter, but also the detailed description of the circuit of present figure 7.

With the June 1 filing date in mind, I ask that you please provide me with your comments by the afternoon of Thursday, May 30, 1991. Thank you.

Sincerely,

James P. Bergin
